# Featured Speakers

Maldwyn Buckland

Maldwyn Buckland is a seasoned professional in the field of higher education with a rich background in quality assurance and academic standards.

Topic:

**How learning Works:** Explore key concepts, processes, and theories around memory, communication, comprehension, motivation, metacognition, and attention.

Amit Singh

Founder, Kensaa  
IIM A Alumnus (PGP 12-14),  
US + Singapore Patent Innovator

Topic:

**Learn to Utilise GenAI Effectively:** Explore safe and ethical usage, safeguarding data privacy while integrating AI responsibly into educational environments.

Amrithesh P Singh

Accomplished Educational Professional  
15+ Years of Experience in Education Sector

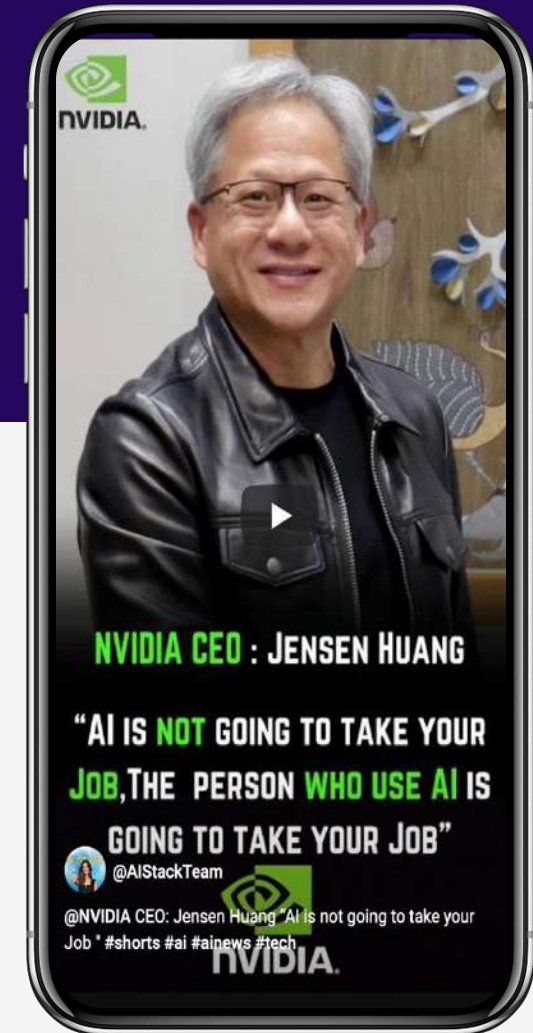

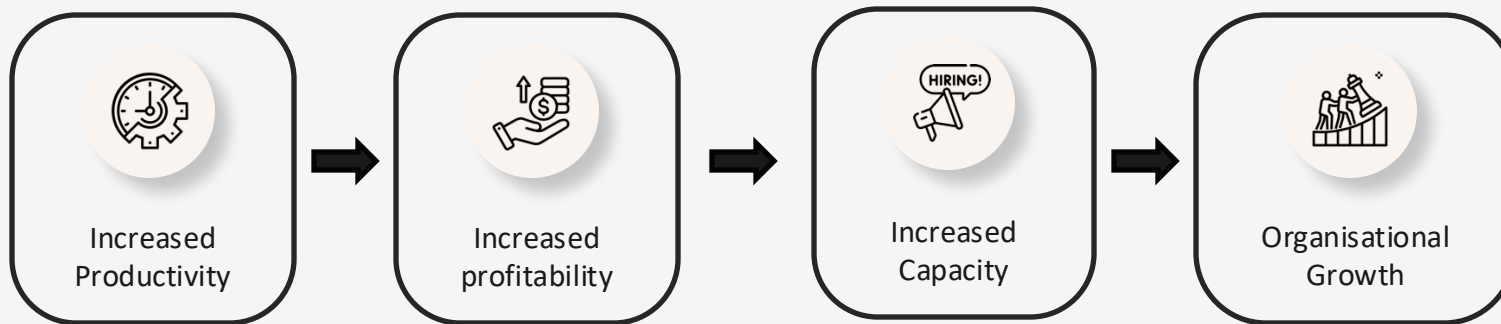

Topic:

**Lesson planning and delivery:** Explore how the backward design framework, traditional and non-traditional organizational teaching strategies (such as storytelling) can be used to plan and deliver an effective lesson.

Why AI Training?

“You will not go out of business because of AI but **because other business uses AI**” – Jensen Huang

With near-zero intelligence costs, fast AI adoption achieves previously costly tasks.

Customised Workshop

# Tailored AI Training for Institutes

Total Duration: 3Hrs

## AI-Enhanced Curriculum

Workshops equip faculty to design innovative, AI-driven curriculums.

## Streamlined Research

AI tools simplify research processes and academic task automation.

## Personalized Engagement

Focus on innovative teaching and tailored student development strategies.

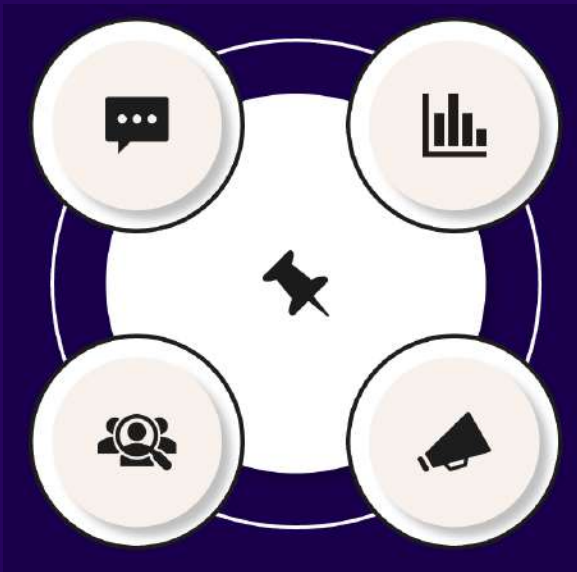

# Unlocking New Potentials with AI Training

## Increased Efficiency & Productivity

Participants will learn how to use ChatGPT for mundane tasks, thereby saving time and allowing them to focus on more strategic activities.

## Increased Innovation & Creativity among Faculty

Encouraging the use of ChatGPT for brainstorming and ideation will foster a culture of innovation and creative thinking within the institute

## Enhanced Student Experience & Learning

Increased student engagement and improved learning outcomes, enhancing overall educational experience, by utilising Gen AI capabilities

## Reference Material & Resources

Comprehensive reference materials and resources to support in-depth learning and enhance understanding of the core concepts of Gen AI, and how to use them.

# Workshop Plan

## Agenda

Our two-session workshop (1hr 15mins each) introduces AI fundamentals and practical uses, emphasizing AI thinking, prompt engineering, mind maps, and data privacy. This training empowers participants to utilize AI effectively and responsibly.

1

### Introduction to AI & ChatGPT

The workshop starts with AI basics, providing a solid foundation

1

### Practical Application Of ChatGPT

Learn to automate & optimize daily tasks with

1

### Hands – on Training

Interactive exercises and real-life scenarios provide practical experience with ChatGPT.

1

### Advanced Features & Best Practices

Develop AI thinking skills, Master prompt engineering and learn how to safely use AI

Fundamental Skills

## AI Training at GD Goenka Public School, Lucknow

The AI Training session by Kensaa at GD Goenka Public School, Lucknow was exceptional. The trainers made complex AI concepts accessible and engaging for our faculty. The learnings will help our teachers save time but also reduce time & efforts in non-teaching tasks.

~ Chairman, GD Goenka Public School, Lucknow

The Beekay Group recently hosted an impactful training session on AI, titled 'Transforming Businesses using AI,' led by Divya Joshi and Amit Singh from Kensaa Design Studios in Lucknow.

The session focused on enhancing productivity with ChatGPT, covering applications like ad design, email writing, strategic planning, text-to-Excel conversion, data visualization, market research with GPT-4, and creative thinking models.

Our employees from HR to Sales and Digital Media gained valuable insights, showcasing AI's potential to revolutionize our operations.
