# AI Tools for FinTech: A Non- Tech Foundational Bootcamp

This beginner-friendly bootcamp introduces non-tech learners to AI-powered tools used across FinTech sectors. In just four weeks, participants gain hands-on experience automating finance tasks, building AI chatbots, creating pitch decks, and visualizing data—all without coding. Ideal for aspiring professionals seeking practical FinTech exposure and readiness for advanced diploma programs.

About Innova

# Learn to use AI tools for FinTech operations, automation, and pitch decks

This 4-week bootcamp is designed for beginners looking to understand how AI is transforming the FinTech industry. With no technical or financial background required, you'll explore AI tools that simplify finance workflows, support decisions, and enhance digital services across payments, lending, wealthtech, and more.

Each week includes hands-on practice with leading no-code AI tools, enabling learners to simulate customer support, build pitch decks, or generate finance content instantly. By the end of the course, you'll be ready to build AI-powered financial tools and advance to deeper diploma-level training in FinTech innovation.

## Master Visual Branding with Canva Tools

Learn to design logos, templates, and brand assets that reflect your vision and communicate your value clearly.

## Build, Pitch, and Monetize Your Business

Develop a complete branding kit, craft your pitch deck, and explore freelancing platforms to monetize your Canva skills.

# Key Highlights

## Duration

4-week bootcamp  
with weekly toolkits

## Course Level

Beginner-friendly,  
no coding required

## Format

Practical, no-code  
tools with real  
FinTech use cases

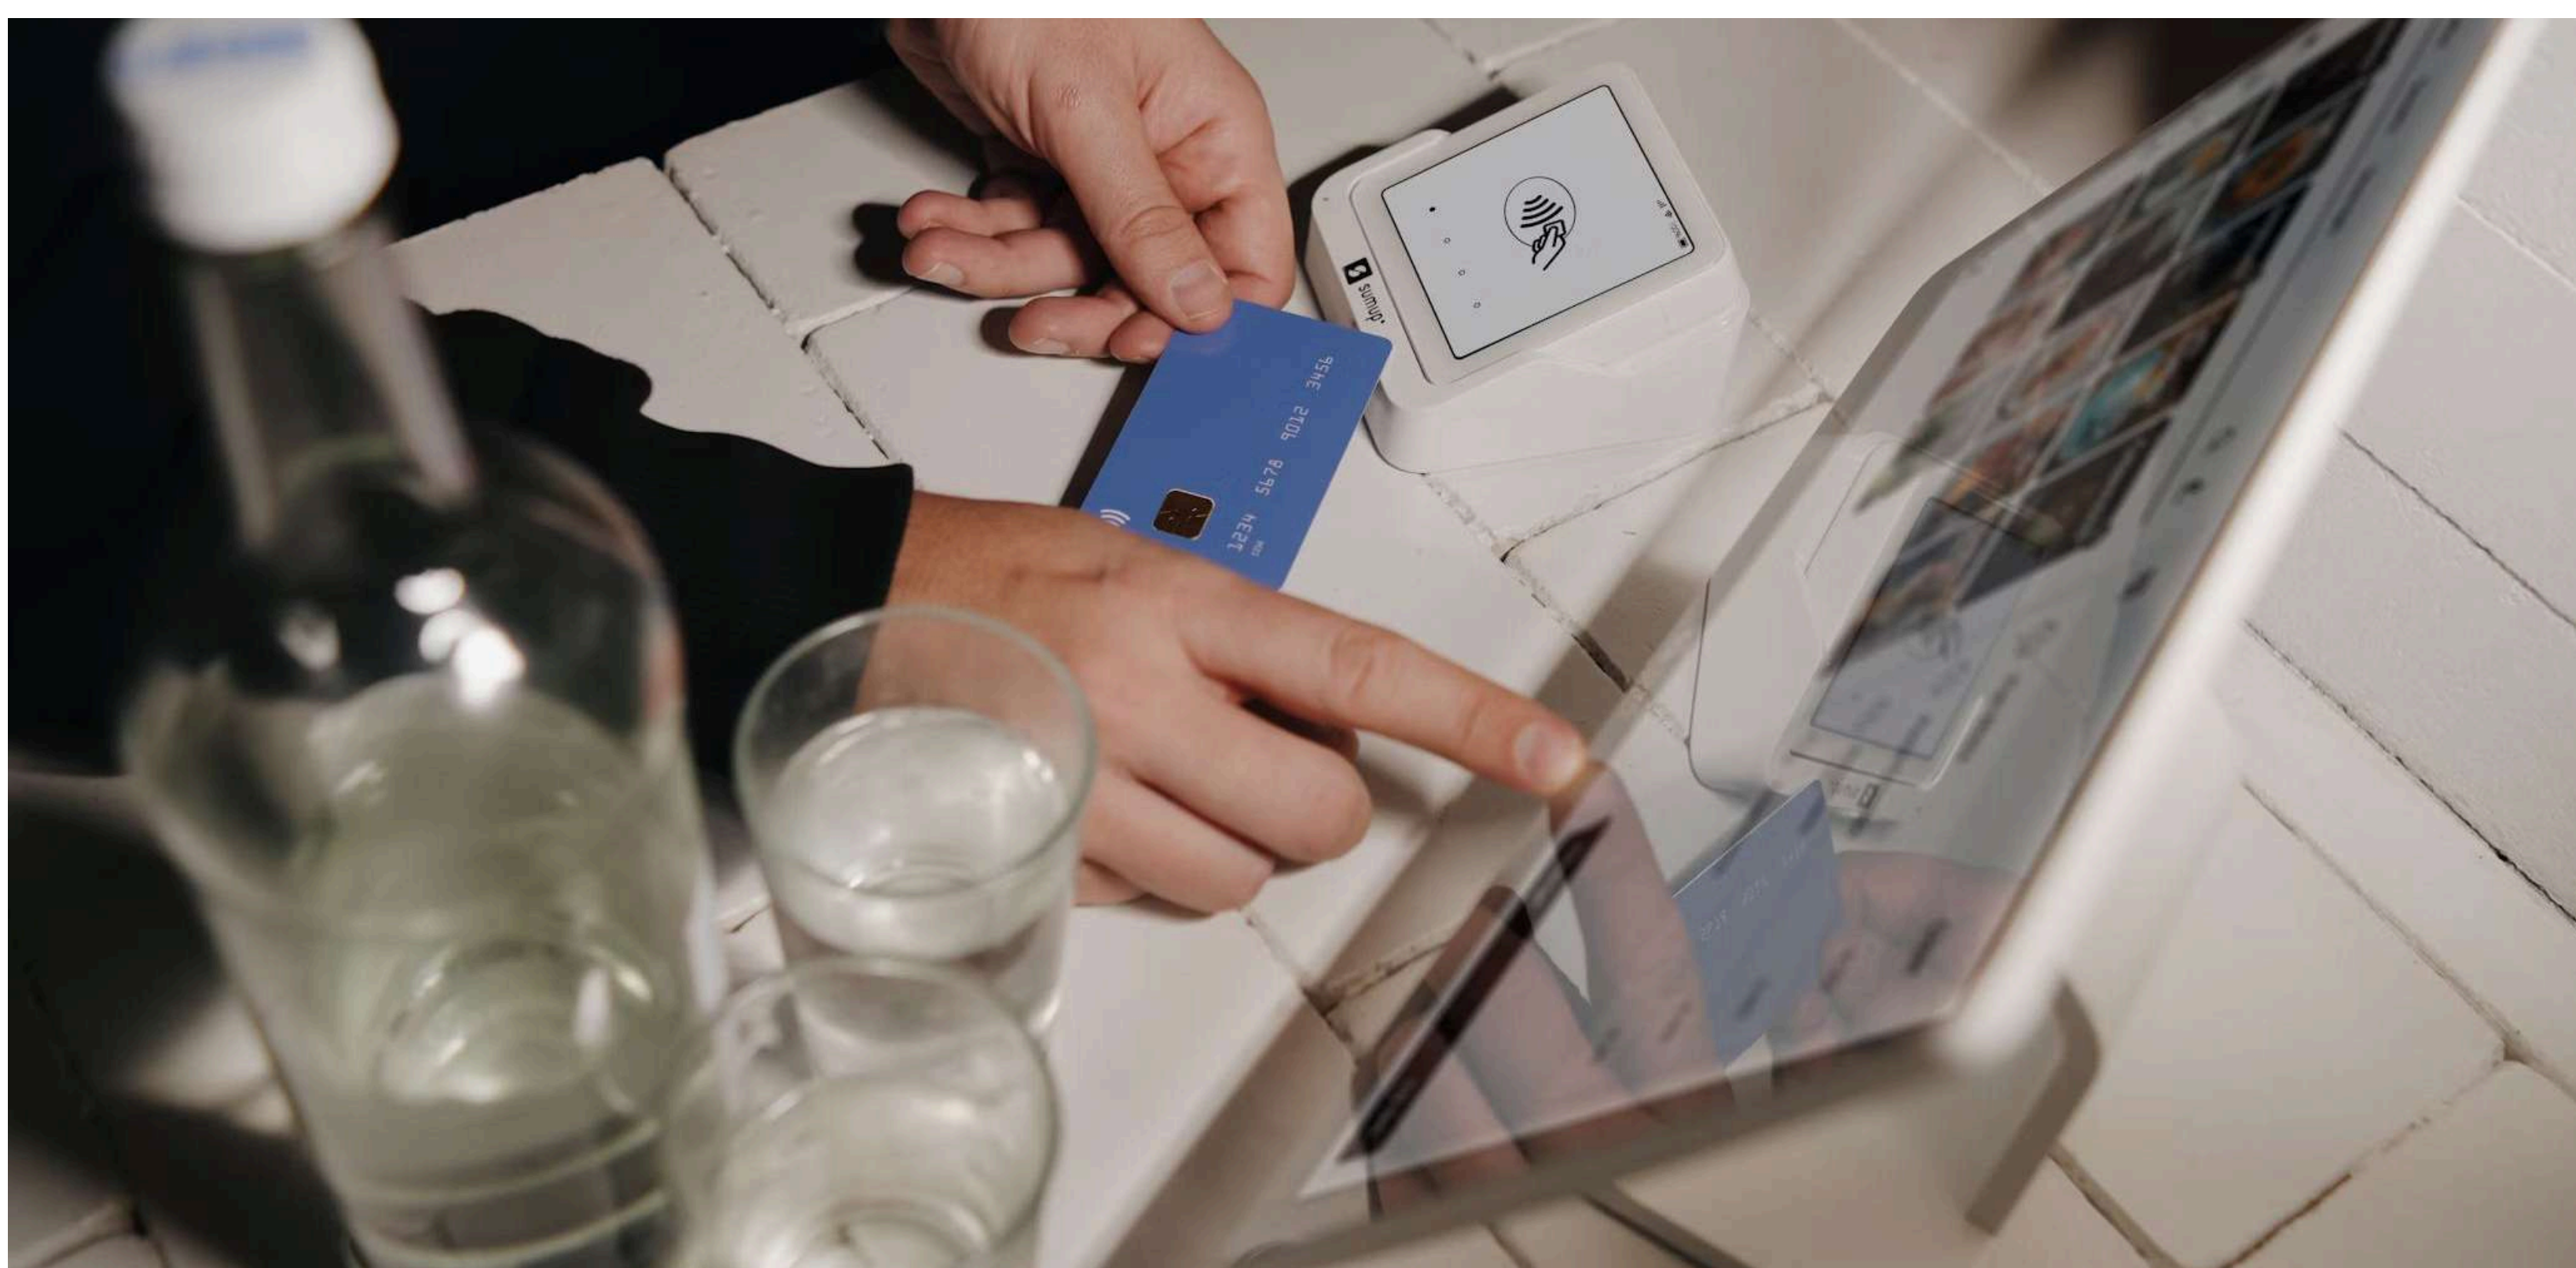

## Outcome

AI chatbot, pitch  
deck, or finance  
simulation project

## Understanding FinTech & AI

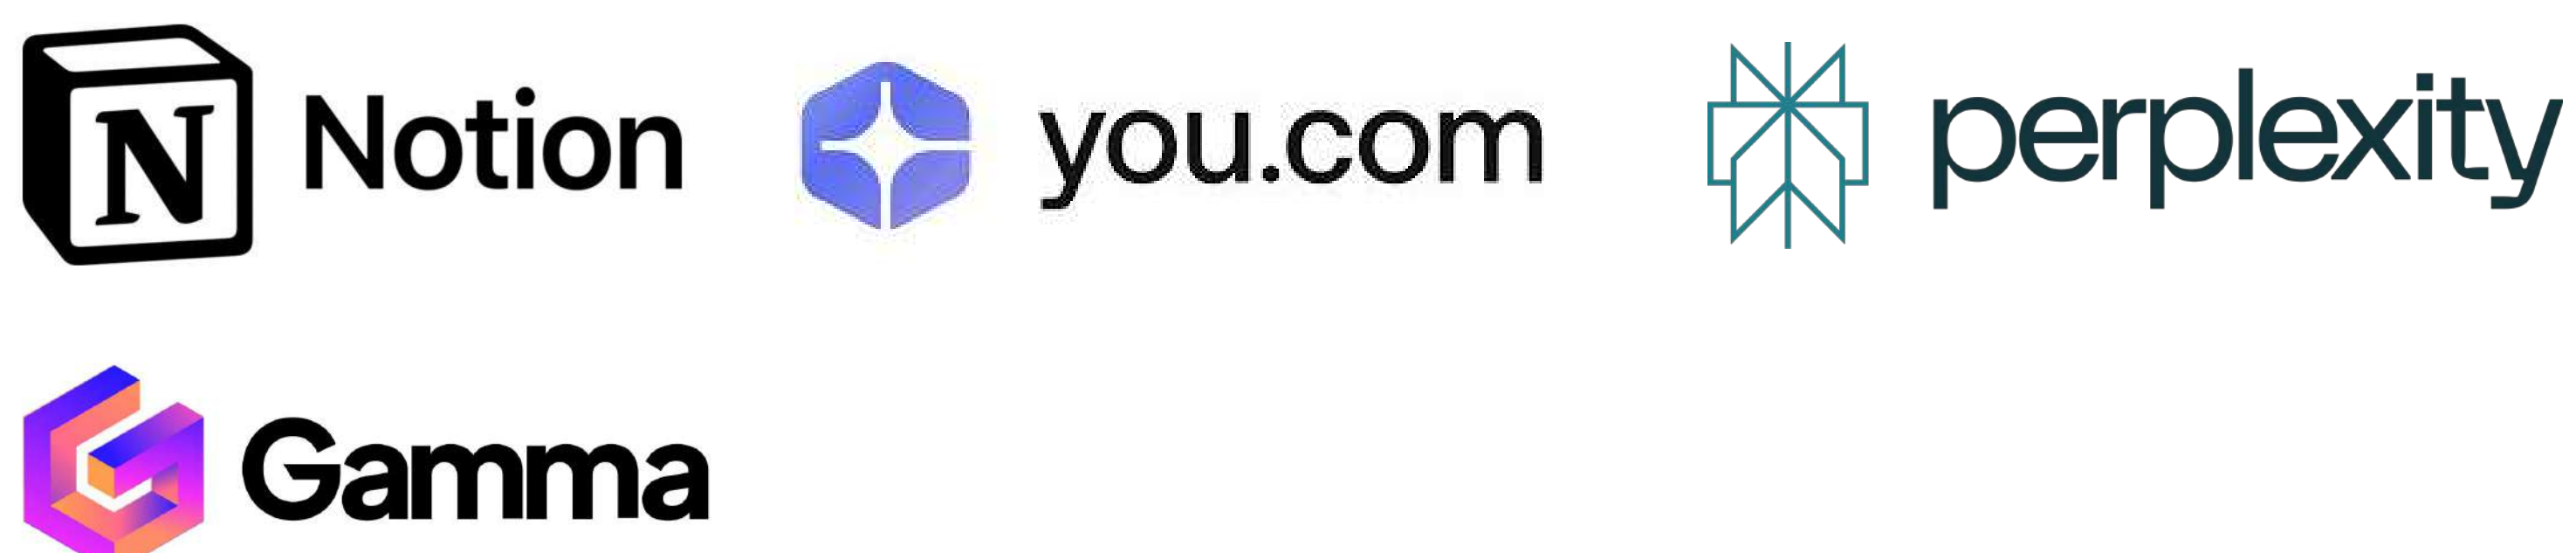

The first week offers a clear, jargon-free introduction to the world of FinTech. You'll explore key sectors like Payments, Lending, WealthTech, and InsurTech while discovering how AI is reshaping these domains. This week sets the stage by connecting concepts with tools that turn complex ideas into simplified, visual outputs.

### Topics Covered

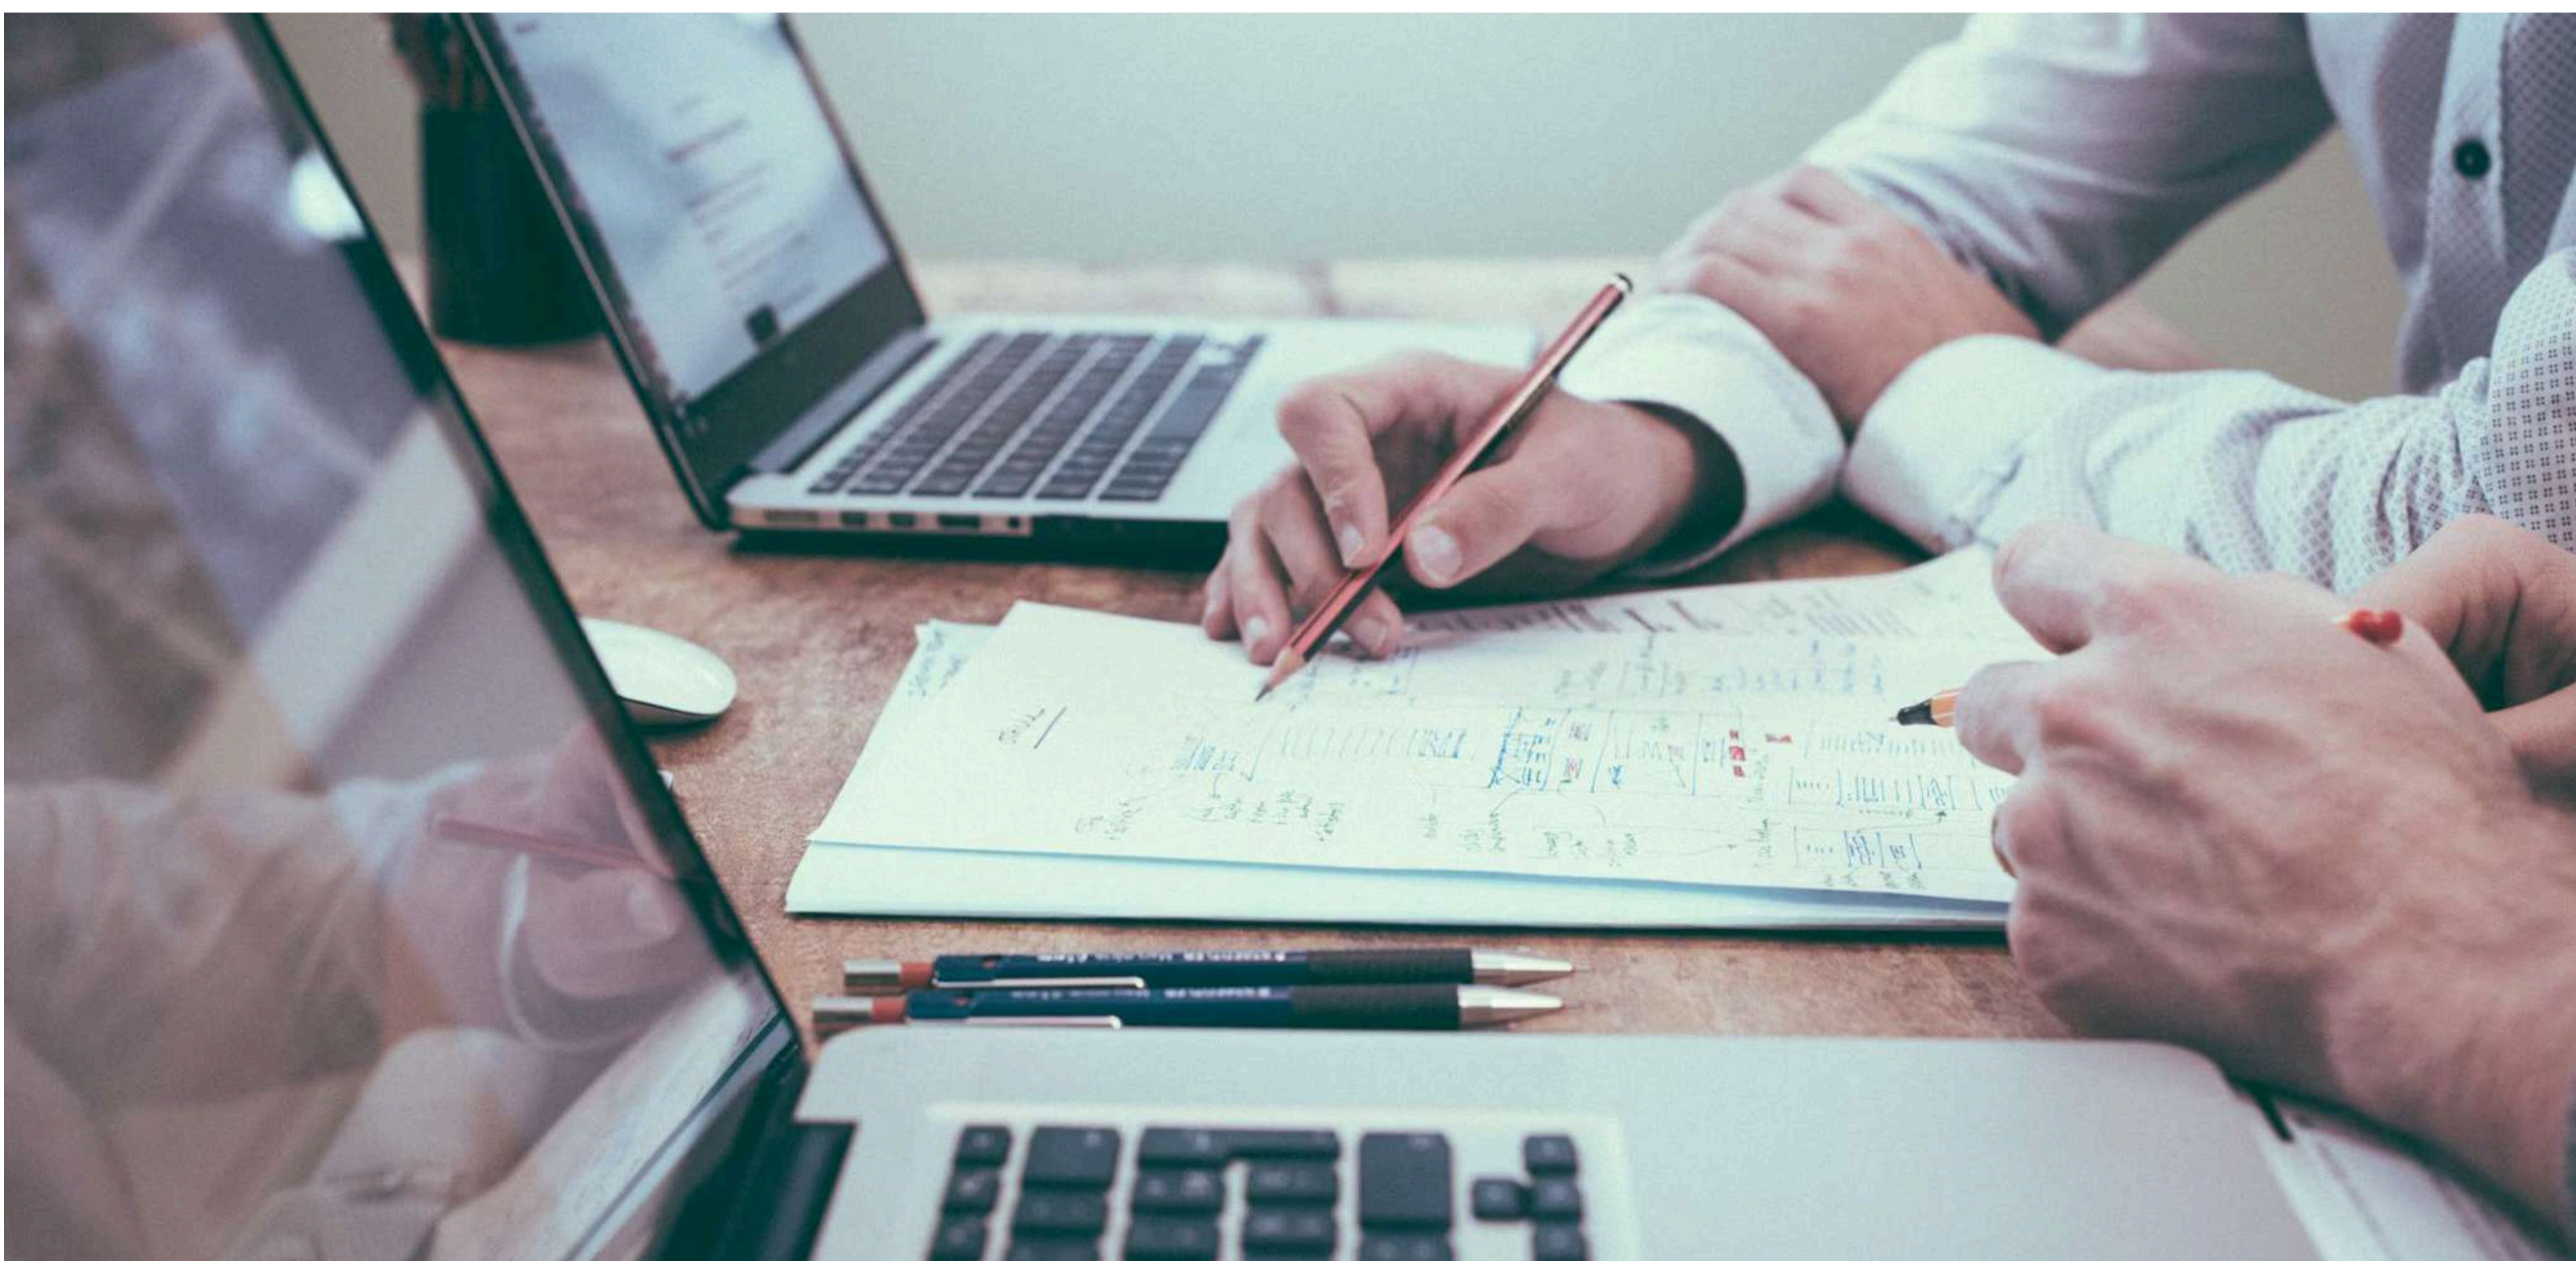

- What is FinTech?
- Overview of FinTech sectors: Payments, Lending, WealthTech, InsurTech
- Where AI fits in FinTech workflows
- AI Use Cases: Chatbots, Fraud Alerts, Wealth Recommendations

### Tools Covered

## Automating Finance & Services

This week focuses on real-world applications of AI for personal finance and customer service. You'll simulate budget advisors, automate FAQ generation, and use AI to respond to financial queries. The goal is to build confidence in using AI to support everyday financial tasks and enhance client experiences.

### Topics Covered

- AI in Daily Finance: Budgeting, Advisory, FAQs
- Content Creation for Financial Platforms
- Simulating Client Interactions and Support

### Tools Covered

# Visualizing FinTech Ideas Using AI

Week three dives into storytelling with AI. You'll learn how to package ideas for stakeholders through professional decks, product landing pages, and data-driven visuals. Using drag-and-drop design tools, you'll create investor-ready pitch decks and infographics that communicate your FinTech idea clearly and visually—no design skills needed.

## Topics Covered

- FinTech Product Presentation Basics
- AI in Investor Pitches & Use Cases
- Visual Planning of Business Models

## Tools Covered

**beautiful.ai** *Canva* **Magic Studio**  **MIXO**

## FinTech Simulations Without Code

In the final week, you'll simulate full FinTech experiences using no-code tools. From building AI chatbots to automating advisory workflows, this week brings together everything you've learned. You'll leave with a project that demonstrates your ability to create functional, AI-powered finance solutions—even with no programming background.

### Topics Covered

- AI Chatbots for Finance Queries
- Auto-Generated Investment Advice
- Simulated Credit Score & Wealth Evaluations

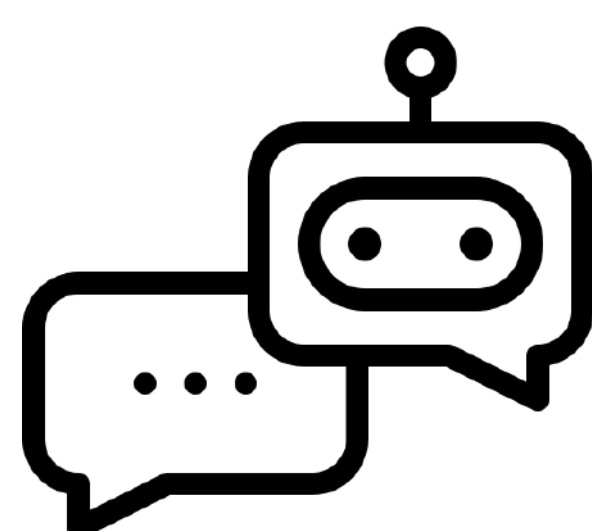

### Tools Covered

# Build an AI-Ready FinTech Prototype

In the final week, you'll apply everything you've learned to build a functional FinTech concept using AI tools—without writing a single line of code. You can choose to simulate a finance chatbot, develop a pitch deck, or automate a client advisory flow.

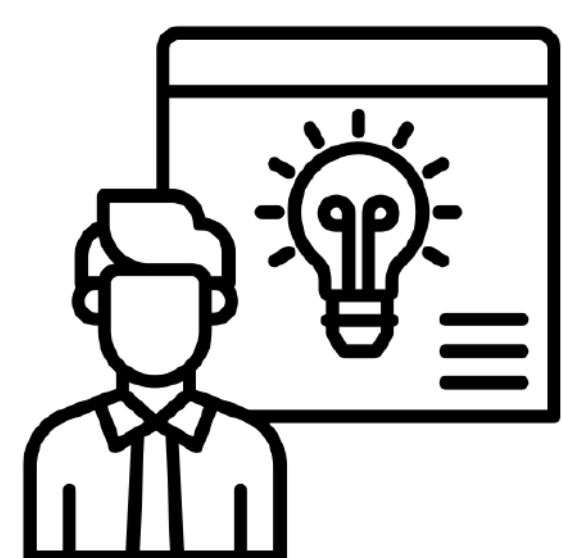

The project reflects real-world FinTech needs and showcases your ability to combine AI tools for problem-solving and storytelling. This becomes your portfolio piece for future roles, freelance work, or entry into advanced diploma programs.

## Finance Chatbot

Simulate a budgeting or advisory assistant using drag-and-drop interfaces

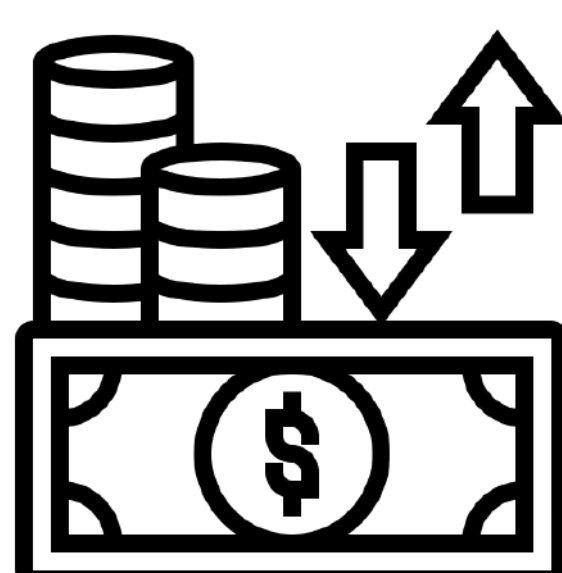

---

## Pitch Deck

Create a startup concept deck for a FinTech business idea

---

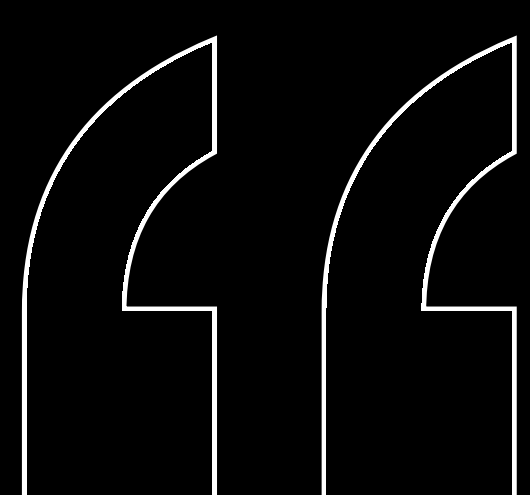

## Simulation Flow

Build a credit score or investment journey using FinTech logic tools

---

Capstone Project

Apply your skills to create a real, usable FinTech solution powered entirely by no-code AI.

# Your AI FinTech Showcase

Craft a practical FinTech project that blends creativity and functionality. Whether it's a chatbot, dashboard, or investor deck, your work demonstrates how AI can solve problems without needing code or deep financial expertise.

This capstone is designed to prove your readiness for real-world innovation and future learning in FinTech.

# Driving Careers Through Industry-Focused Learning

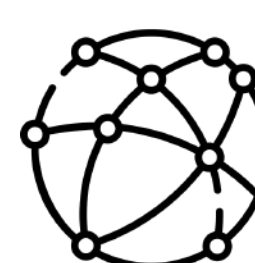

Innova Training Institute is a KHDA-approved vocational institute based in Dubai Knowledge Park. Backed by global affiliations, it delivers career-focused programs that blend academic rigor with practical skill-building.

With guaranteed internships, small-batch mentorship, and real-world projects, Innova helps learners transition confidently into the workforce. Each course is designed to ensure relevance, industry integration, and job-readiness from day one.

## Dual Qualification

Academic degrees with industry-recognized certification

## Global Recognition

Endorsed by Pearson, IOA, Qualifi, and Accredited by KHDA

## Mentorship Model

1:3 expert ratio with personalized guidance

## Career Integration

Projects, internships, and startup simulation embedded
